

Product Information

CT #406

General Purpose Polyester Film

406 is a 1 mil polyester film with thermosetting acrylic adhesive (available in clear and yellow) used for general electrical applications that require good solvent resistance.

Application:

- Tough, conformable, thin tape for general electrical applications that require good solvent resistance

TECHNICAL DATA

Adhesive	Acrylic
Substrate	Polyester Film

Thickness	2.5 Mils (0.0635 mm)
------------------	-------------------------

Adhesion to Steel	35 oz/in
--------------------------	----------

Tensile Strength	23 lbs/in
-------------------------	-----------

Elongation (% at Break)	100
-----------------------------------	-----

Dielectric Strength	5,000 Volts
----------------------------	-------------

Insulation Class	155°C
-------------------------	-------

The data provided are nominal values based on PSTC, ASTM, and other standard tests. The data should not be considered specifications.
