CT #401

Premium Grade Black Plastic Vinyl Electrical Tape

401 is a premium grade, 8.5 mil, black plastic vinyl electrical tape suitable for all weather. It has high dielectric strength, flame retardant, and resists chemicals, solvents, and cold temperatures.

Meets Specs: MIL-I-24392C; UL & CSA.

Application:
- Primary insulation for splices up to 600 volts
- Offers complete electrical and mechanical protection
- Excellent for low temperature protective outer jacket

The data provided are nominal values based on PSTC, ASTM, and other standard tests. The data should not be considered specifications.
