

## Product Information

### CT 308 Double-Sided Splicing Tape

#### Description:

120 µm translucent double-sided splicing tape consisting of a non-woven carrier coated with an acrylic adhesive and covered by a brown paper liner. The special adhesive formulation ensures a secure bond on a variety of paper materials, even at elevated temperatures. With its high adhesive coating weight, it offers an especially high tack for a safe initial bond even on rough and heavy paper grades.

#### Application:

- Splicing of paper (liner and flute) in corrugated board production.
- Splicing of paper in newsprint and converting processes.
- Splicing of heavy paper and cardboard.

#### Technical Data

Adhesive	Acrylic
Substrate	Non-Woven Paper
Type of Liner	Glassine
Color	Brown
Thickness (mils)	4.72 (0.12 mm)

*The data provided are nominal values based on PSTC, ASTM, and other standard tests. The data should not be considered specifications.*
