

Product Information

CT 314 Plate Mounting Tape for Photopolymer Plates

Description:

Double-coated vinyl with polypropylene liner. Designed for played mounting in wide web flexographic printing, particularly solid areas and line work. Unwinds smoothly to ensure that there is no plate movement or edge lift problems, even at high speeds and on extended print runs. Made to tightest thickness tolerances to ensure accurate printing results.

The polypropylene liner prevents the formation of air pockets when plate mounting. Exhibits excellent resistance to all commonly used solvent systems used in flexographic printing.

Application:

- Mounting of photopolymer plates in flexographic printing.

Technical Data

<i>Adhesive</i>	Natural Rubber
<i>Substrate</i>	Soft PVC
<i>Thickness (mils)</i>	15 (0.381 mm)

The data provided are nominal values based on PSTC, ASTM, and other standard tests. The data should not be considered specifications.
