

## **Product Information**

## CT 308 Double-Sided Splicing Tape

## **Description:**

 $120~\mu m$  translucent double-sided splicing tape consisting of a non-woven carrier coated with an acrylic adhesive and covered by a brown paper liner. The special adhesive forulation ensures a secure bond on a variety of paper materials, even at elevated temperatures. With its high adhesive coating weight, it offers an especially high tack for a safe initial bond even on rough and heavy paper grades.

## **Application:**

- Splicing of paper (liner and flute) in corrugated board production.
- Splicing of paper in newsprint and converting processes.
- Splicing of heavy paper and cardboard.
