

Product Information

CT 328 Double-Coated Vinyl Plate Mount Tape

Description:

Double-coated soft PVC vinyl tape with a high performance rubber adhesive and polypropylene liner. Designed for use in wide web flexographic printing, particularly for solid areas and line work. Unwinds smoothly to ensure cylinder coverage.

High adhesion and good shear resistance ensures that there is no plate movement or edge lift problems, even at high speeds and on extended print runs. Also offers excellent resistance to all commonly used solvent systems used in flexographic printing.

Application:

- Mounting of photopolymer plates in flexographic printing.

Technical Data

Adhesive	Natural Rubber
Substrate	Soft PVC
Thickness (mils)	19.7 (0.5 mm)

The data provided are nominal values based on PSTC, ASTM, and other standard tests. The data should not be considered specifications.
