

Product Information

CT #902

Polyimide Pressure Sensitive Adhesive Tape

902 is a 1 mil polyimide pressure sensitive adhesive tape (high performance silicone adhesive) that can be used in very high temperatures.

Application:

- Provides the best Class 180 insulation available
- Wrapping and splicing of wire and cables, and as a mask for wave soldering of printed circuit boards
- Superior dielectric strength
- Excellent tear and abrasion resistance

TECHNICAL DATA

Adhesive	Silicone
-----------------	----------

Substrate	Polyimide Film
------------------	----------------

Thickness	2.76 Mils (0.07 mm)
------------------	------------------------

Adhesion to Steel	24.7 oz/in (700 gf/in)
--------------------------	---------------------------

Tensile Strength	Above 7.7 lbs/in
-------------------------	------------------

Elongation (% at Break)	Above 50
-----------------------------------	----------

The data provided are nominal values based on PSTC, ASTM, and other standard tests. The data should not be considered specifications.
