

## Product Information

### CT #936

#### Extruded PTFE Film Tape

3 Mil PTFE (Polytetrafluorethylene) extruded film coated with a pressure sensitive silicone adhesive. Same thicknesses available in etched version. Ideal for applications requiring a conformable release surface and a very low coefficient of friction and non-stick properties.

Also available in 2 Mil thick (#935), 5 Mil thick (#937), and 10 Mil thick (#939).

#### Application:

- High temperature magnet coil and capacitor wrapping
- Composite bonding
- Electronics and industrial masking
- Conveyor release linings

#### TECHNICAL DATA

<b>Adhesive</b>	Silicone PSA
-----------------	--------------

<b>Substrate</b>	PTFE Film
------------------	-----------

<b>Thickness</b>	4.5 Mils (0.114 mm)
------------------	------------------------

<b>Adhesion to Steel</b>	35 oz/in (3.83 N/cm)
--------------------------	-------------------------

<b>Tensile Strength</b>	30 lbs/in (53.57 N/cm)
-------------------------	---------------------------

<b>Elongation</b> (% at Break)	300
-----------------------------------	-----

<b>Operating Temperature</b>	-100°F to 500°F (-73°C to 260°C)
------------------------------	-------------------------------------

<b>Dielectric Strength</b>	10,000 Volts
----------------------------	--------------
